Saif Chamakhi

UNITY DEVELOPER | GAMEPLAY, UI SYSTEMS & MULTIPLAYER

Tunis, Tunisia | +216 52 099 160 | chamakhiseif@gmail.com
Portfolio & case studies | LinkedIn | GitHub

Unity developer building games since 2019 and working in professional studios since 2023. Specialises in gameplay systems, reusable UI architecture, and multiplayer features for PC, Android, and WebGL.

CORE TOOLKIT

Gameplay & architecture: Unity, C#, .NET, event-driven systems, ScriptableObjects, state machines, Minimax / Alpha-Beta

UI & multiplayer: Unity UI / Canvas, reusable interfaces, Photon Fusion, Photon Quantum, client/server sync

Performance & delivery: Unity Profiler, Addressables, texture/mesh compression, Android, Steam, WebGL, Git, REST APIs

PROFESSIONAL EXPERIENCE

StolenPad
Feb 2026 - Present

Unity Developer

- Built 5+ hypercasual prototypes, owning gameplay systems, UI, and release readiness solo on most builds. Several are being pitched to publishers.
- Upgraded and republished 20+ legacy titles to Unity 6, resolving compatibility issues and Google Play requirements including 16 KB page-size support.
- Reduced web and mobile build sizes using texture and mesh compression, profiling-led optimisation, and Addressables.

BNJMO
Feb 2025 - Feb 2026

Unity Developer

- Authored the studio's shared audio, announcement, event, and UI-transition framework; distributed it through Git submodules across games and client projects.
- Refactored Maleficus gameplay/UI boundaries and built state-driven onboarding and spell selection. Project complete, awaiting publisher release.
- Built Tikto King Minimax/Alpha-Beta AI and shared board/turn systems; delivered ScriptableObject-driven shop, profile, quest, and settings UI for Super One.

Blue Gravity Studios
Nov 2023 - Sep 2024

Game Developer

- Owned Draft Fever Bowl's UI layer and reusable popup framework within a 20+ person production.
- Integrated Photon Fusion and WebGL UI optimisation on The Plooshies; built Albert's Ark Idle progression and early UI, supporting its Steam release.

READY TO TEK
Feb 2023 - Nov 2023

Game Developer

- Owned UI, gameplay, and backend integration through The Amazing SaniBoy's Google Play release. The game reached 100,000+ downloads and a 4.7-star rating.
- Implemented store data, Google Play services, ads, and leaderboards; built loading UI and supported level design and launch bug fixes.

Tools built: Texture and mesh compression editor tools; adaptive UI framework for varying content, button counts, and resolutions.

EDUCATION & LANGUAGES

Bachelor's in Video Game Development | ISAMM, Manouba | 2019-2022
Arabic - Native | English - Professional | French - Fluent
